### **What's the purpose of the retreat?**

The purpose is to create a supportive spiritual community for young adults on the East Coast involved in Korean-American churches, as well as any other young adult who is interested in connecting, networking and seeking a fellowship with other young adults. The environment is welcoming and friendly for you to also invite your non-Christian friends, or those who have left the church.

### **What kind of topics will be presented?**

Are you Korean? American? Christian? Adventist? How you identify yourself will determine how you live your life. But how conscious are you of who you think you are? This series of seminars will uncover the layers of the complex identity of Korean-American Adventist Christians and propose a biblical model forward.

### **Who will be speaking?**

Justin Kim serves as the Assistant Director of Sabbath School/Personal Ministries and Editor of the Collegiate Quarterly for the General Conference World Headquarters of the Seventh-day Adventist Church. He attended a Catholic high school and graduated from the Jewish-sponsored Brandeis University with degrees in sociology and biology before working in medical research at Harvard Medical School.
